

Intelligent Endo Motor

360° Rotary head 16:1 Contra-angle Ai intelligence

Technical parameter Brushless All-in-one

Contra angle	6:1	
Rotate speed	50~2000rpm	
Torque	0.6~4.0N.cm	
Working modes	FWD,REV,REC,ACC,ATC	
Lithium battery	3.7V/1200mAh	
Motor	Brushless	
Screen	0.96 inch TFT color LCD	

Adjustable reciprocating angle

Precise rotation angle, reduce the risk of needle breakage, higher preparation efficiency. Smooth, low noise and small vibration.

High-performance brushless motor

High precision Hall sensor control. Large torque, high speed and fast response. More stable and accurate. Low wear, low heat and longer service life.

Software can be updated connected to computer

USA Imported chip

Ai algorithm
Smooth and efficient cutting
Accurate to 1°

10 times the service life of brush motor

Brushless motor

Brush motor

Unique design

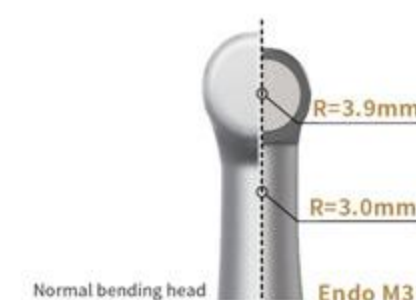

The handpiece can be placed upright or lying flat on the base.

6:1 mini contra angle provide a broader operating vision

Smaller and Narrower

13.5% Reduction

Thinner

20% Reduction
